ABOUT ME

Salesforce Developer with almost 3 years of experience in developing complex integrations and automating business processes. Experienced in managing and delivering small projects, solving tasks as a team lead while overseeing small teams.

WORK EXPERIENCE

Salesforce Developer

Twistellar Inc.

Jul 2021 – Nov 2023 | Minsk, Belarus

- Apex: Developed complex integrations, wrote triggers, and automated business processes.
- Node.js: Created integrations to overcome Salesforce platform limits, developed tools for dynamic PDF generation using Node.js libraries.
- Deployment & Hosting: Primarily used Heroku for deployment and hosting, with additional experience in Digital Ocean, Zeabur, and Supabase platforms.
- Frontend Development: Built complex, multistep interfaces using LWC (Lightning Web Components), Aura, and Visualforce.
- CI/CD Pipelines: Configured CI/CD pipelines on Bitbucket for seamless deployment across sandboxes and production environments.
- Team Lead: Managed small teams of developers and testers for the past 7 months. Responsibilities included requirement gathering from clients, task decomposition, effort estimation, code review, and final delivery to clients.
- Management Skills: Improved managerial skills, self-organization, and punctuality. Focused on infrastructure and workflow optimization for the development team.

Junior Researcher

PHTI

May 2020 – Sep 2021 | Minsk, Belarus

- Improved existing laboratory processes.
- Participated in research projects by designing and executing experiments.
- Collaborated with researchers and scientists to design and execute experiments.
- Cooperated with other technicians to develop and test new protocols.
- Assisted scientists by collecting and organizing laboratory data.
