6. Salesforce Certified Administrator ([3747398](#))

## ABOUT ME

Experienced developer with 4 years of expertise in building scalable full-stack solutions over Salesforce platform.

## WORK EXPERIENCE

### Salesforce Developer

*Twistellar, Jul 2024 – Present*

**Apex:** Design and implement sophisticated integration solutions, custom triggers, and automated business processes for Sales Cloud and CPQ implementations.

**LWC:** Build dynamic, responsive designs utilizing both Salesforce Lightning Design System and external JavaScript libraries.

**Sales Cloud & CPQ:** Configure and customize Sales Cloud features, implement CPQ product configurations, amendment API, and quote generation processes.

**Experience Cloud:** Develop and customize Experience Cloud sites with advanced portal functionalities and user management systems.

### Web3 Developer

*Self-employed, Dec 2023 – Present*

**Blockchain Integration:** Develop decentralized applications (dApps) with focus on smart contract interactions

**TON Ecosystem:** Build applications on TON blockchain using JS/TypeScript and specialized libraries

### Salesforce Developer

*Twistellar, Jul 2021 – Nov 2023*

**Team Lead:** Managed small teams of developers and testers for the several months. Responsibilities included requirement gathering from clients, task decomposition, effort estimation, code review, and final delivery to clients.

**CI/CD Pipelines:** Configured CI/CD pipelines on Bitbucket for seamless deployment across sandboxes and production environments.

**Apex:** Developed complex integrations, wrote triggers, and automated business processes.

**Node.js:** Created integrations to overcome Salesforce platform limits, developed tools for dynamic PDF generation and filling using external libraries.

**Deployment & Hosting:** Primarily used Heroku for deployment and hosting, with additional experience in Digital Ocean platform.

**Frontend Development:** Built complex, multiscreen interfaces using LWC, Aura, and Visualforce.
